## COMPOSITE DESCRIPTION

Portfolios in the CORE Moderate Conservative composite are managed using the CORE Moderate Conservative Strategy. The CORE Moderate Conservative Strategy is a long only strategy seeking to outperform the blended benchmark is 35% MSCI ACWI Net Total Return Index & 65% Bloomberg US Aggregate Total Return Index by utilizing diversified risk exposure as the foundation of an investor's portfolio. By incorporating risk-based allocations combined with efficient core index ETFs, long term asset allocation goals can be achieved while controlling volatility. The CORE Moderate Conservative Strategy allocations are established based on KIM's capital market assumptions.

The CORE Moderate Conservative Strategy attempts to build an optimized portfolio for all risk and reward characteristics by owning up to 15 asset classes at once and re-balancing over time. The goal is to capture risk premium by buying low and selling high over an entire market cycle.

## IMPORTANT DISCLOSURES

Kingsview Investment Management ("KIM") is the internal portfolio management group of Kingsview Wealth Management ("KWM"). KIM services are offered to KWM clients through KWM IARs. KIM asset management services are also offered to non KWM clients and unaffiliated advisors through model leases, solicitor agreements and model trading agreements. KWM clients utilizing asset management services provided by KIM will incur charges in addition to the KWM advisory fee. Kingsview Wealth Management, LLC is registered as an investment adviser with the United States Securities Exchange Commission ("SEC"). SEC registration does not constitute an endorsement of the firm by the SEC nor does it indicate that the adviser has attained a particular level of skill or ability.

Kingsview Investment Management (KIM) claims compliance with the Global investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Kingsview Investment Management has been independently verified for the periods March 31st, 2016 through December 31st, 2023. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

For the purpose of complying with GIPS standards, KWM and KIM are separate and distinct entities. KWM manages assets across a wide scope with many independent advisors and does not claim compliance with the GIPS Standards. KIM is a subset of KWM where KIM retains the sole investment decision making ability on accounts it is managing under KIM, and all composites and models under KIM are maintained consistent with the GIPS Standards, and KIM does claim compliance with the GIPS Standards.

The CORE Moderate Conservative Composite includes all portfolios that invest in the asset allocation program CORE Moderate Conservative with the goal of providing balanced long-term capital growth from a well-diversified strategy. Although the strategy allows for equity exposure ranging between 30–40%, the typical allocation is 35% equity. The blended benchmark is 35% MSCI ACWI Net Total Return Index & 65% Bloomberg US Aggregate Total Return Index. The benchmark is re-balanced monthly. The composite was created and inception on March 31, 2016. The minimum account size for inclusion is \$17,500. A complete list of the Firm's composite descriptions is available upon request.

Performance results and assets are presented in US dollars and are net-of-max model fees and trading expenses and reflect the reinvestment of dividends and capital gains. The applicable fee schedule is 1.75%. Actual fees may vary based on, among other factors, account size and custodial relationship. Policies for valuing investments and preparing GIPS reports are available upon request.

Beginning January 1, 2017, accounts with net external cash flows greater than 20% of the account value at the last valuation date are excluded from composite performance calculations for the month the transaction(s) occurred.

The composite's valuation hierarchy adheres to the recommended GIPS valuation hierarchy principles.

No current or prospective client should assume future performance of any specific investment strategy will be profitable or equal to past performance levels. All investment strategies have the potential for profit or loss. Changes in investment strategies, contributions or withdrawals may cause the performance results of your portfolio to differ materially from the reported composite performance. Different types of investments involve varying degrees of risk, and there can be no assurance that any specific investment will either be suitable or profitable for a client's investment portfolio.

Historical performance results for market indices and/or categories, generally do not reflect the deduction of transaction and/or custodial charges or the deduction of an investment management fee, the incurrence of which would have the effect of decreasing historical performance results. Economic factors, market conditions, and investment strategies will affect the performance of any portfolio and there are no assurances that it will match or outperform any particular benchmark.

Number of portfolios, composite assets, and total firm assets represent end-of-period values.

Reported dispersion numbers represent the equal weighted standard deviation of portfolio gross performance for the subset of accounts managed the entire reporting period. Dispersion is not reported for years with five (5) or less portfolios under management the entire period.

The three-year annualized ex-post standard deviation is calculated using 36 consecutive monthly gross returns for both the composite and the benchmark. The composite uses population calculation for standard deviation.

Total firm assets refer solely to all discretionary accounts managed by Kingsview Investment Management.

Past performance is not indicative of future results.
